Deaf History International

Deaf History International (DHI) is an international organization dedicated to the study of deaf peoples' histories worldwide. Founded in 1991, Deaf History International marked its 30th anniversary in 2021. DHI members enjoy access to networks within the field of Deaf history, camaraderie with those who enjoy the study of Deaf history, periodical DHI newsletters, and enjoy a discounted registration rate at official DHI conferences that are held every three years.
